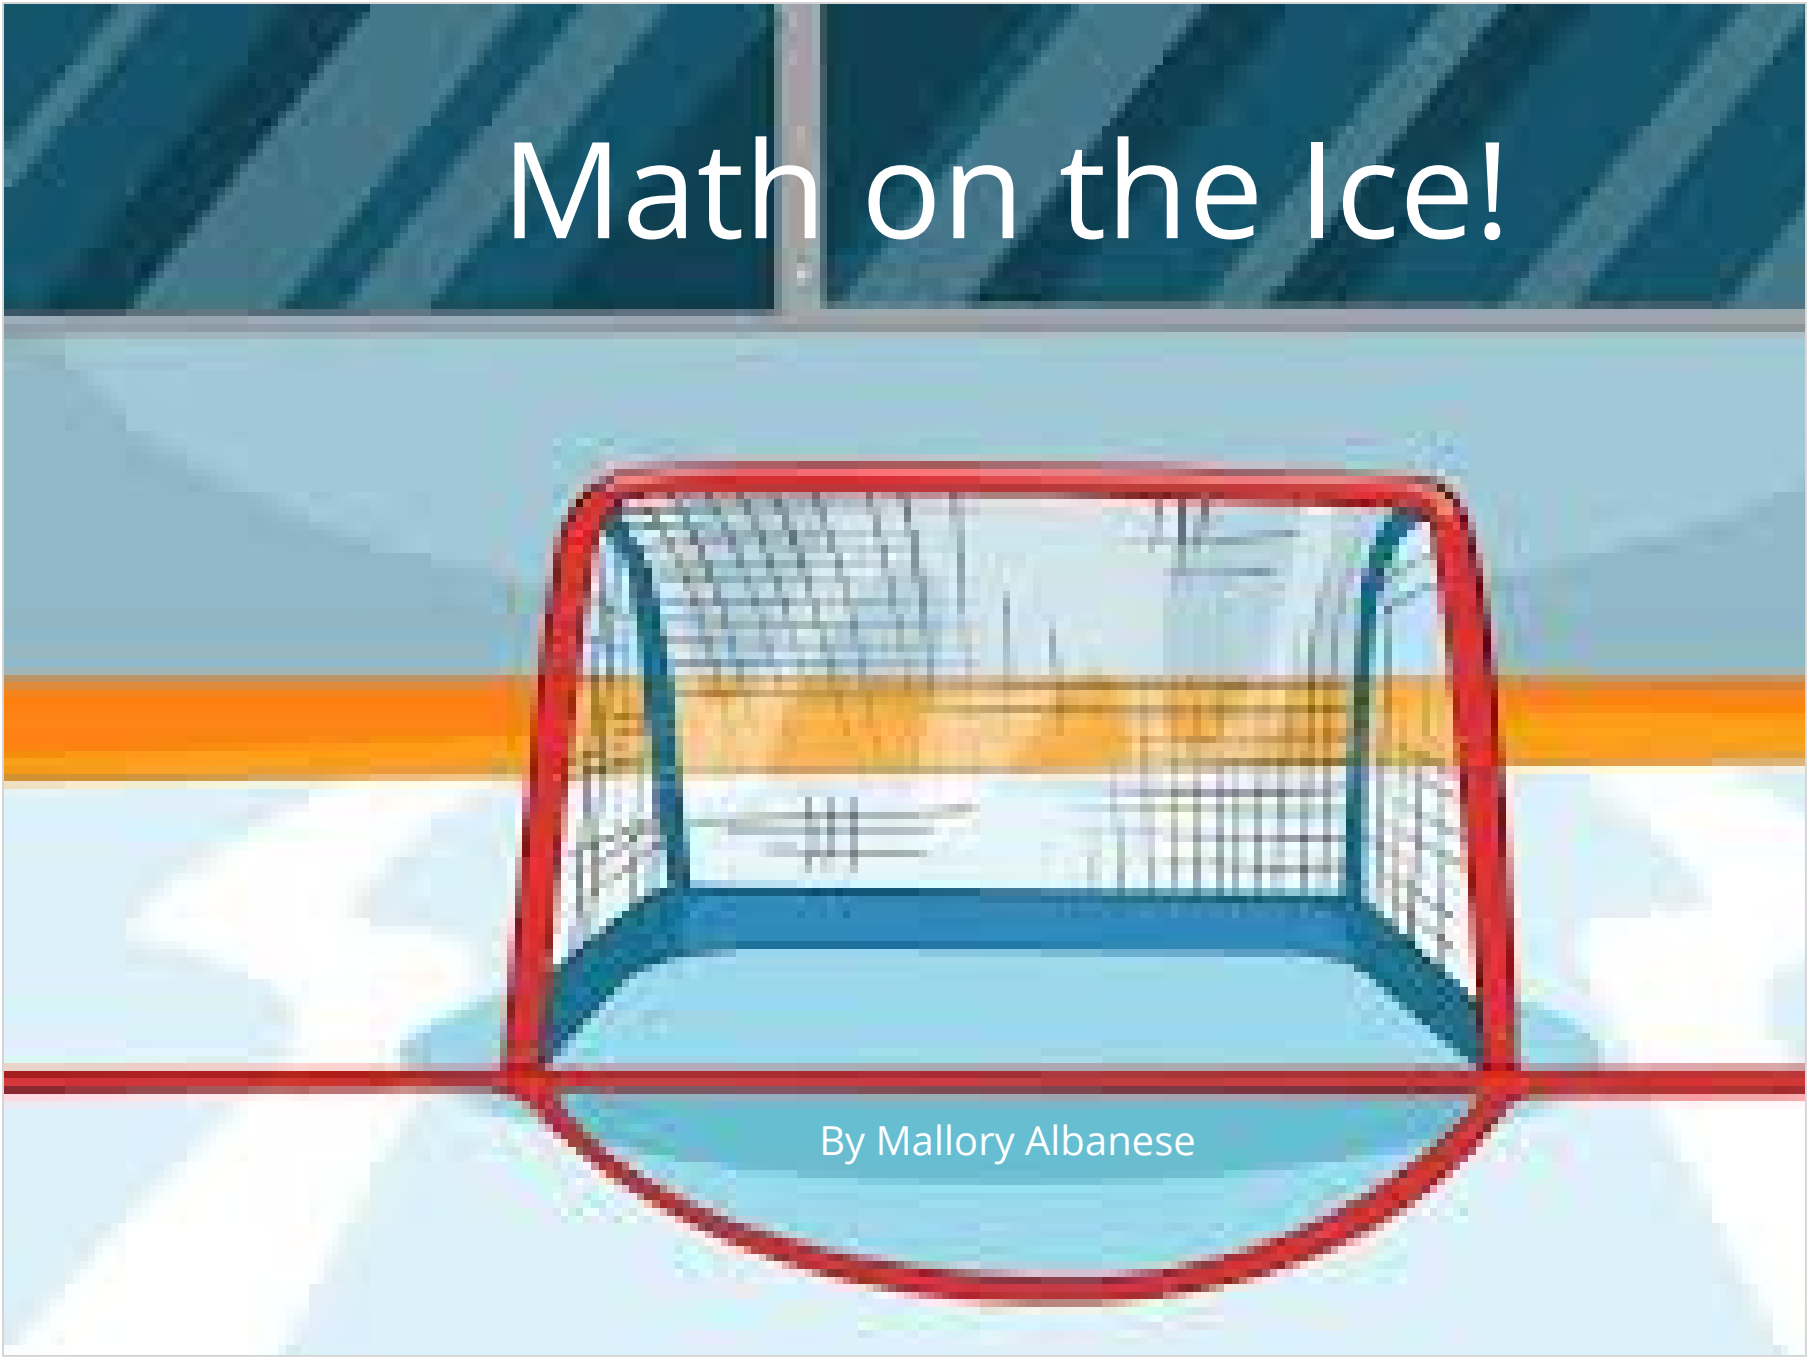
Math on the Ice!



By Mallory Albanese

Meet the team!

Tyler

Sky

Amanda

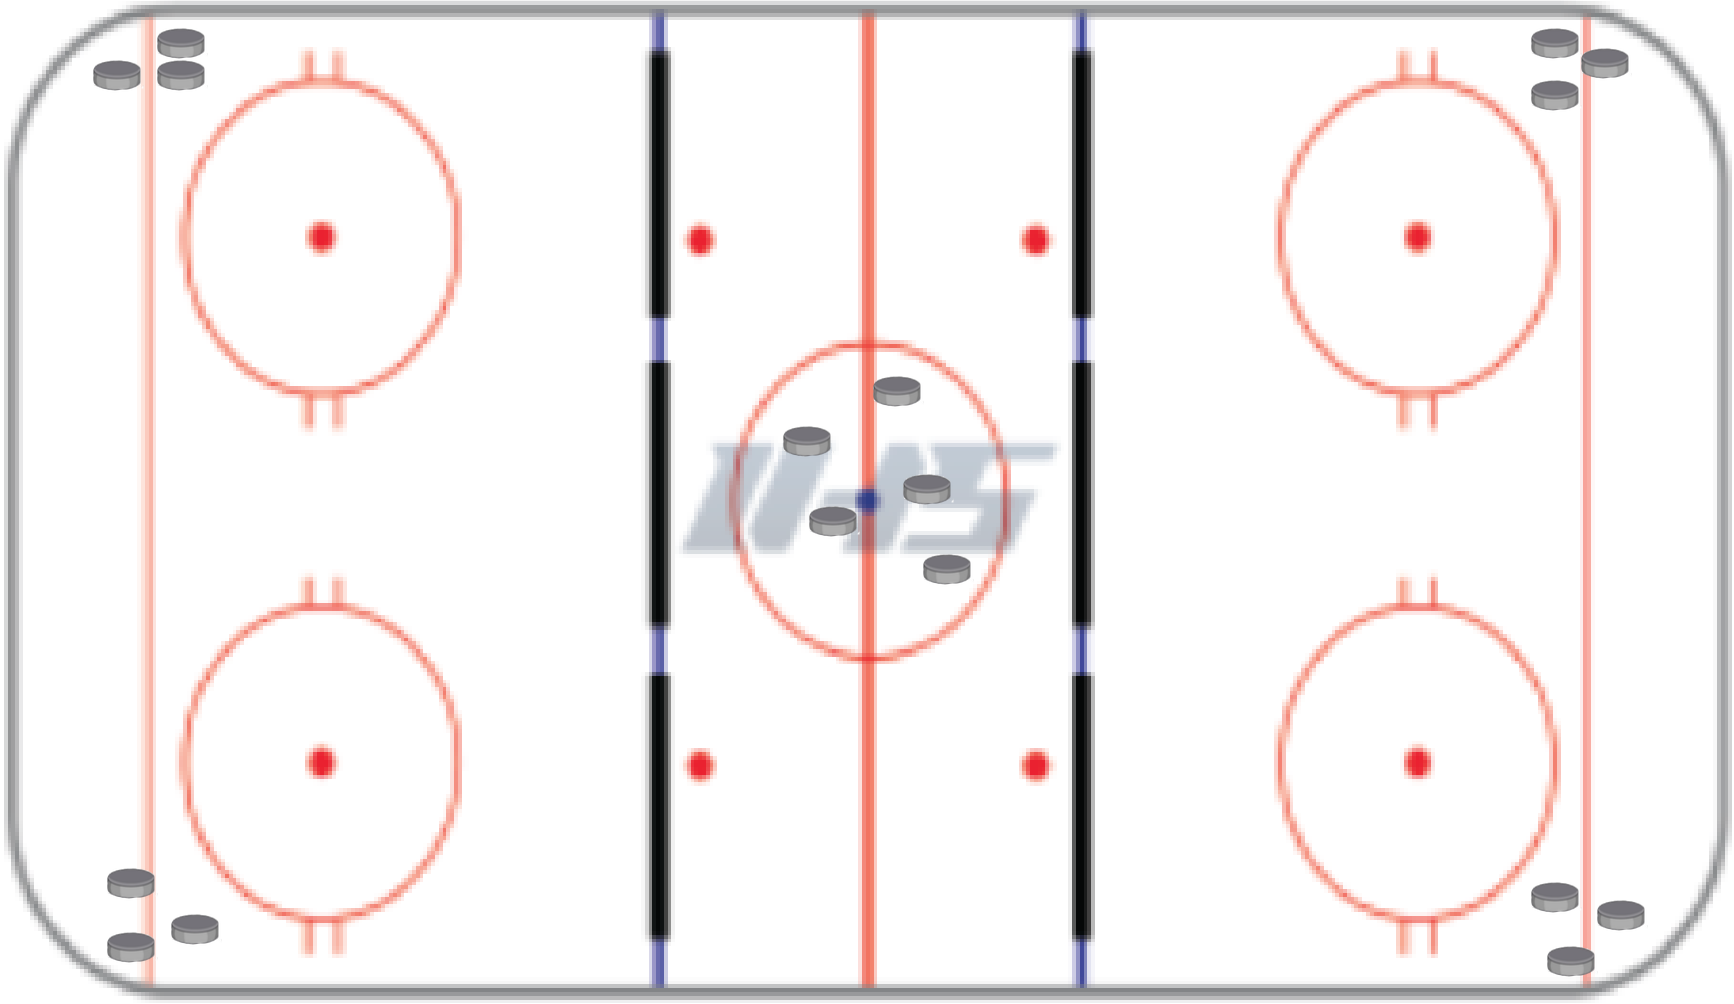
Ava

Ryder

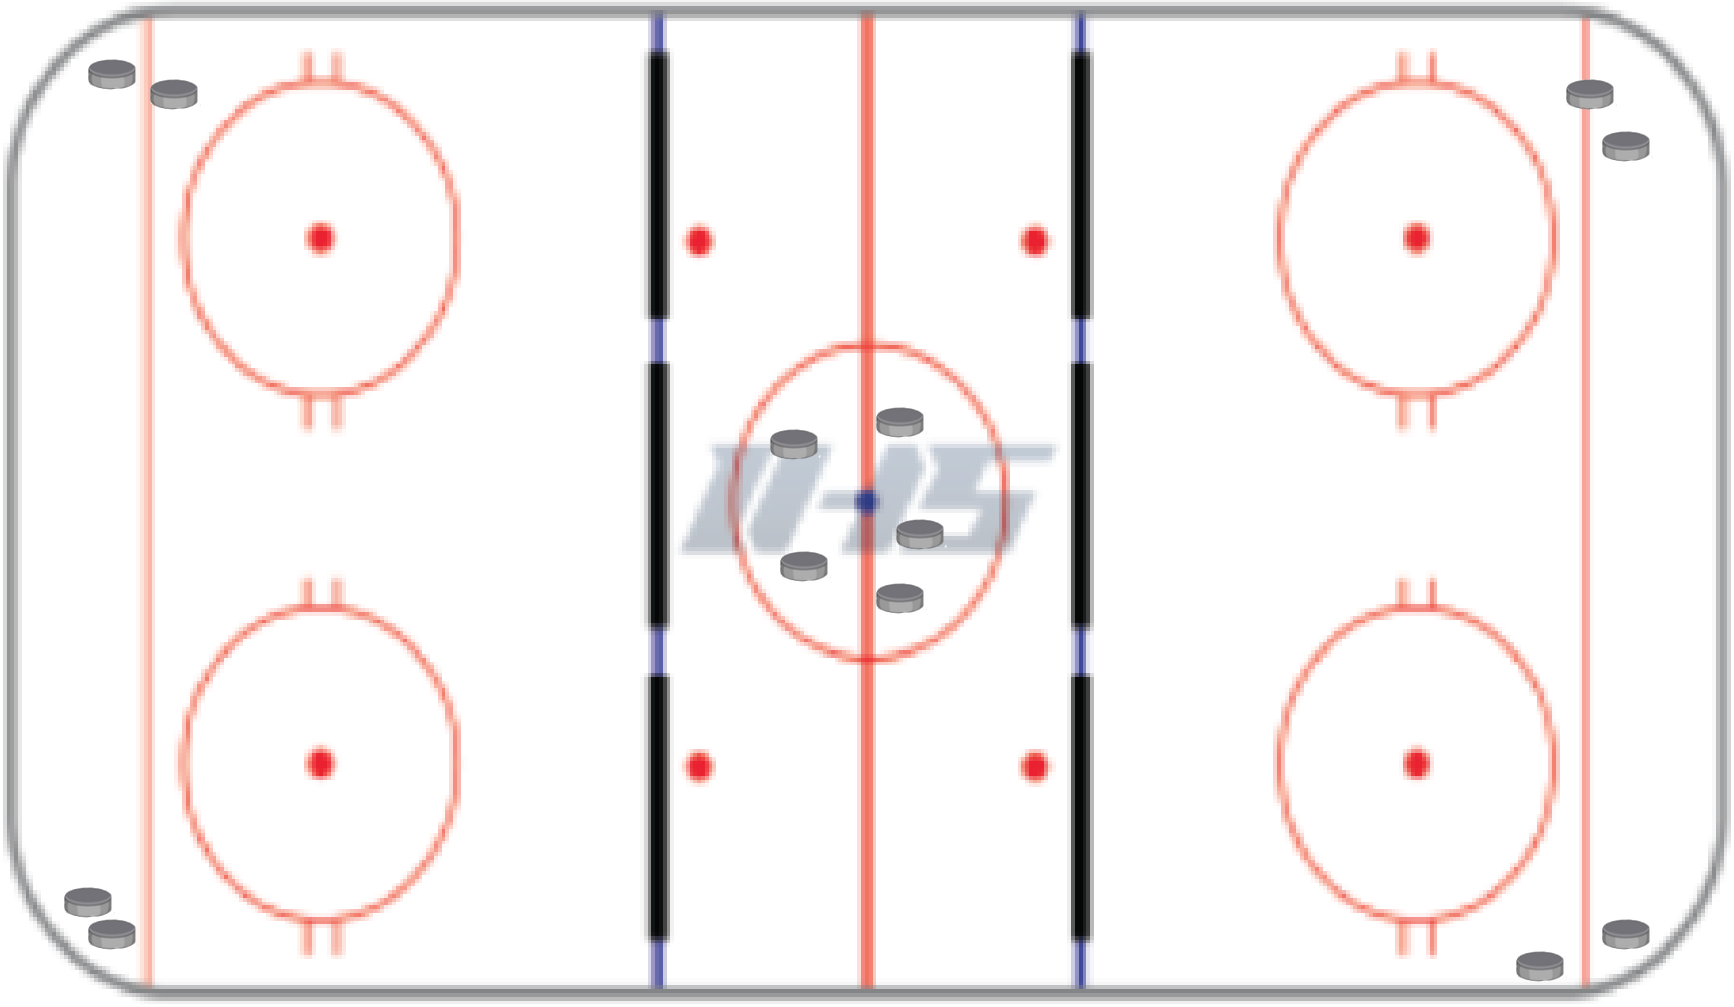
Matt

How many skaters can you count?

Coach threw a bucket of pucks on the ice. How many pucks can you count?



While practicing, Tyler and Sky shot 4 pucks out of the rink. How many pucks are on the ice now?



Some of the players sticks are outside the locker room. Can you tell whose stick is the tallest? How about the shortest?

Help Matt count his points!

Weekend 1:
Saturday- 3 points
Sunday- 1 point

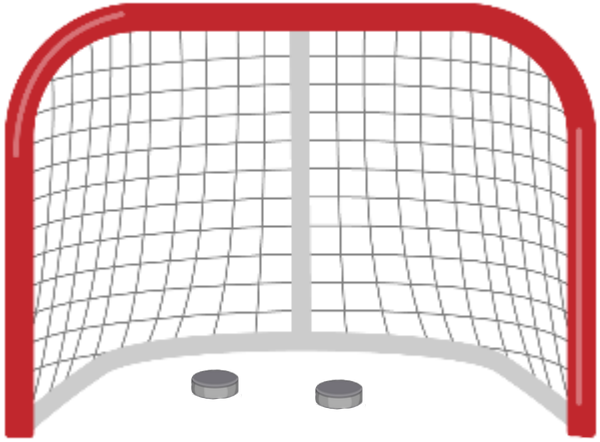
Weekend 2:
Saturday- 1 point
Sunday- 2 points

Weekend 3:
Saturday- 5 points
Sunday- 2 points

After the first three weeks of games, what is the total number of points Matt has?

Which goalie had more pucks scored on them?

Amanda's Net



Ryder's Net

How many different jersey colors are the skaters wearing? Is any jersey color being worn more than the others?

Tyler
